Modified	~1986	J. Scott Weaver and Marion O. Weaver	Added roof windows in room over the garage.

The ~ 1979 addition involved raising the back roof; adding two back bedrooms; extending the foundation (as crawl space) for additional space added to the dining room; building a kitchen over extended foundation; enclosing a probable breezeway to permit a laundry area and eat-in alcove adjacent to the kitchen and give egress to the attached garage. Also, back garage roof was raised, foundation extended, and a finished room was built over the garage, accessed from the alcove. A first floor bathroom was removed, enlarging an existing bedroom, and a new bathroom and powder room was built between the bedroom and the kitchen.
